

April 11, 2008 - The Government of Trinidad & Tobago awarded to the TriniTrain Consortium (Ratp¹ Dev (<http://www.ratpdev.com/trinidad-and-tobago.php>), Bouygues Construction² and Alstom Transport) a contract to Design, Build, Operate and Maintain (BDOM) the future rapid rail system that will link cities over Trinidad Island. The proposed system includes two express train lines with a total length of approximately 105 km. The Trinitrain consortium will be working on the project with the Covec subsidiary of China Railways Engineering Corp, locally-based construction company Daynco³ and Canadian engineering consultancy Dessau⁴.

August 12, 2008 - WSP appointed Trinidad rail project manager (<http://www.railwaygazette.com/news/single-view/view/10/wsp-appointed-trinidad-rail-project-manager.html>). WSP will act as project manager for the design, build, operate and maintain contract which the government awarded to the Trinitrain consortium of Bouygues Construction, Alstom and RATP Développement in April.
